RE: New Ecology Project Manager for the Colbert Landfill

Dear Dean:

I am writing this letter to inform you that I am changing positions within Ecology's Hazardous Waste Investigations and Cleanup Program. I will be working at our Southwest Regional Office in Tumwater. I will not be working on the Colbert project any more, as of April 2, 1990. I certainly will be available for questions and as an "historical" resource to you and to others working on the project. The new Colbert team for Ecology is as follows:

Project Manager and hydrogeologist - Mike Kuntz
Engineer - Vacant (hiring in process)
Community Relations Specialist - Vacant (hiring in process)

Mike Kuntz's telephone number is (206)438-3079 and is at the same address. All correspondence should now be directed to Mike Kuntz. Mike has been with the Cleanup Program for about four years, and has experience with groundwater pump and treat systems, project management, working with Landau Associates, and is very interested in getting involved in this project. All of these attributes will be very valuable to the success of the Colbert project. Mike Kuntz will also be taking over for Russ Darr as the project hydrogeologist.

I have enjoyed working with you, Dennis Scott, and Bill Dobratz over the past several years. Best of luck in the implementation of the
